

# ACOUSTIC LIGHTING MADE IN CHICAGO

**SABIN**

Clarity for Creativity

LINEAR  
ARRAY WITH L27 UNITS

**WE DESIGN AND  
BUILD BETTER  
ACOUSTIC LIGHTING  
PRODUCTS WITH  
CREATIVITY AND  
PRECISION TO  
ENABLE THE MOST  
INCREDIBLE HUMAN  
INTERACTION**

**WE VALUE THE PROCESS OF PRECISION AS MUCH AS THE PROCESS OF CREATIVITY. IT'S THESE TWO ASPECTS, CAREFULLY BALANCED, THAT ALLOW OUR PRODUCTS TO DISTINCTLY STAND OUT.**

**OUR SIGNATURE SEWN CONSTRUCTION POSITIONS SABIN AS THE FIRST ACOUSTIC LIGHTING COMPANY TO CREATE FIXTURES WITHOUT THE USE OF A METAL BODY.**

**THIS PLATFORM ALLOWS US TO DISCOVER AND INTRODUCE A NEW RANGE OF MATERIALS AND METHODS. WE WORK IN A WAY THAT IS MORE EFFICIENT AND ULTIMATELY BETTER FOR THE ENVIRONMENT.**

PRODUCT: QUAD, 3 SIZES / SWATCHES: WISTERIA, FLINT, SIENNA / CORD COLOR: BRONZE, BLACK

Sabin product architectures are intentionally based on geometrically primitive and fundamental forms which allow our products to be utilized as tools of abstraction. Each product unit and series is designed in a way that can expand into wide ranges — actively or passively; scalable sizes and mounting heights combined with finish colors and accent trims invite endless design possibilities.

The light engines that come with our acoustic bodies are sourced specifically to deliver on various properties and options to fit our customers' needs. We also go through rigorous acoustic testing to reach a point where we know every product is delivering quality sound absorption and top acoustic performance.

**WE ARE CONTINUALLY CHALLENGING OURSELVES WITH HOW WE CAN USE BETTER MATERIALS AND METHODS TO DEVELOP OUR PRODUCTS.**

**WE SOURCE SOLUTIONS THAT ARE USEFUL TO BUILDING YOUR DESIGN VISION, AND ULTIMATELY HAVE A BETTER IMPACT ON PEOPLE AND OUR PLANET.**

## **CURATED SWATCHES**

Our color selections are strategically chosen based on color theory systems and optimal configuration. We hand-select specific swatches because it's a moment of collaboration — and a significant finishing decision — on the carefully crafted, thoughtfully engineered acoustic products that we're proud to create. Our goal with color is to allow to for effortless combinations that naturally work together.

## **CONSIDERED LIFE CYCLE**

We believe in the future of the planet. We're working to contribute to a brighter future for humanity — from more environmentally friendly materials to more respectful working methods for all involved. Our products are designed with materials to make reuse or recycling easy that creates a more sustainable product life cycle.

## **ELEVATED COLOR STANDARD**

Many of our material offerings, including cord, come in a variety of color variables that represent a new approach for the acoustic lighting industry. We source all materials in a way that contributes to quality dynamics in acoustic performance and broader sustainability while also delivering appealing design aesthetics.

**OUR DIVERSELY TALENTED TEAM WORKS TOGETHER TO REDEFINE INDUSTRY STANDARDS THROUGH A METHOD AND PROCESS THAT INTEGRATES SKILLED CRAFTSMANSHIP AND PRECISE TECHNOLOGIES.**

Precision meets creativity. Automation meets craft. We're reimagining product design and improving industry practices at every turn to deliver the best acoustic lighting solutions — and contribute to a brighter future.

The Sabin process starts out of our factory in Chicago, with the desire to discover unique solutions to problems our customers frequently face. In every step of product refinement, we are careful to keep in mind the scoping vision and project details. This way, we can develop system-level products — with a highly configurable modified standard — that deliver a premium level of craftsmanship and acoustic performance.

Our sewing specialists and product designers are dedicated to excellent craftsmanship and the innovation required to achieve new product designs. As a result, Sabin products achieve an artfully tailored finish only possible through the invention of special folds and seams and utilizing technology to ensure precision and efficiency. For example, Block is only possible because of our proprietary, patent pending G, Z, and C folds.

We're building Sabin with a narrow purpose—to bring our customers the best products at the intersection of lighting and acoustics. We develop systems of broadly useful design elements and offer many geometric primitive forms in a great range of sizes; our products are tools of abstraction. We're excited to see what folks create. We've built our factory in Chicago, our processes, and our team—all around creating these excellent acoustic lighting systems.

WES COX, CO-FOUNDER AND CPO
