Our colors are curated to lead to naturally optimal configuration. Felt, trim, cord, cable—and even thread—can all be mixed and matched.

The Sabin team takes care to choose colors that represent a span of value, hue, and saturation to enable creativity. There are endless schemes that designers can construct that utilize warm and cool tones, that can be monochromatic, analogous, complementary, triadic, tetradic, or contrasting.

CURATED MOODS

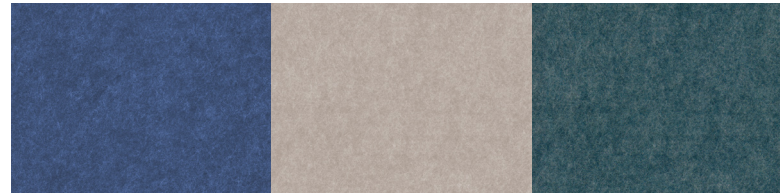

Based in color theory and inspired by nature, our colors can combine into palettes that satisfy a range of moods.

Our range of color options allow designers to create spaces that are visually appealing and emotionally evocative. Whether it's bold, calm, bright, elegant, moody, natural, comfortable—and more—we aim to offer a diverse range of color that can be endlessly combined to suit your needs.
